

POSTDOCTORAL CANDIDATE INTERESTED IN APPLYING FOR A MSCA-IF IN NEUROSCIENCES

Vision and Control of Action

Are you a postdoctoral researcher thinking about your next career move? The Marie Skłodowska-Curie Individual Fellowships ([MSCA-IF](#)) are a great option if you are an experienced researcher looking to give your career a boost by working abroad.

[Institut of Neurosciences](#) of the [University of Barcelona](#) allows you to work in a first class research environment while benefitting from an attractive salary to cover living, travel and family costs.

Group and project information

Applicants will be integrated into the research group "Vision and Control of Action ([VISCA](#))"; (P.I. [Joan López-Moliner](#)).

The research in the VISCA group is carried out within the [Institute for Neurosciences](#). We study how people perform and make decisions in complex environments and the flexibility to adapt to changing conditions of the environment. We explore a broad range of behaviour including decisional judgements and goal-directed motor actions by using different methodologies: psychophysics, computational modeling, virtual reality, eye and motion tracking and neuroimages.
