POSTDOCTORAL CANDIDATE INTERESTED IN APPLYING FOR A FELLOW IN NEUROSCIENCES

Clinical and Health Psychology

Are you a postdoctoral researcher thinking about your next career move? Institute of Neurosciences of the University of Barcelona allows you to work in a first class research environment.

Group and project information
Applicants will be integrated into the research group “Intervention in Clinical and Health Psychology” (P.I. Guillem Feixas).

Our research group is aimed at advancing the knowledge and increasing the quality of psychological interventions in the areas of mental and physical health. We pay particular attention to the study of identity processes, cognitive conflicts, and their role in the change process. To this aim, personal construct and self-regulation theories (both based on constructivist epistemology) have been important sources of inspiration for implementation, both in research and practice. We are also incorporating a research line on citizenship, aimed at rights-based mental health care.

We are looking for postdoctoral researchers interested in the understanding of identity processes and its application in clinical practice and public mental health.

Requirements for candidates:

Skills/Qualifications:
- Experience in Database management
- Knowledge of quantitative and/or qualitative analyses
- Good level of scientific writing
- Experience in grant applications
- Clinical training and interest in psychotherapy

Languages:

English: Excellent
Spanish: Desired
Catalan: Desired
