Relevant aspects

At proposal stage:

- **Deductions apply** to amounts indicated in MSCA Work Programme as well as **Country Coefficient Factors** to adapt the project to the host country.
- These are **not irrelevant** aspects, please be in touch with your institution PRIOR to submitting the proposal
- You **don't need to explain** how the budget will be distributed for RTN, unless something really specific

Relevant aspects

At implementation stage:

- Institutions **follow national and institutional rules**, always talk to the Human Resources + European Office staff
- **Taxation varies** throughout Europe
- RTN budget must be made available for the use of the project and for the benefit of the researcher
- A good **Career Development Plan** will include details on how the budget will be used
- In case of secondment/placement, a **Partnership Agreement** will be signed between institutions to establish the specific activities, IPR aspects, management of funds

Under Marie Skłodowska-Curie Postdoctoral Fellowships (MSCA-PF), does the researcher have to justify his/her family status?

Active

If the proposal is successful, it is a contractual obligation for the beneficiary (the entity signing the grant agreement) to ensure that all the necessary documentation demonstrating the researcher's family status is correct and is kept on file in case of audit.

Under Marie Skłodowska-Curie Postdoctoral Fellowships (MSCA-PF), can EU funds be transferred to a third country, including the funding intended to cover indirect costs?

Active

The EU contribution must be directly managed by the beneficiary established in an EU Member State or Associated Country. According to Article 9 of the MSCA-PF Grant Agreement, the beneficiary may call upon associated partners to implement part of the action (e.g. hosting and training the researcher during a secondment or the outgoing phase of a Global Fellowship). Associated partners participate in the action but do not sign the grant agreement and do not have the right to charge costs or claim contributions. Only the beneficiary can claim contributions. The beneficiary retains sole responsibility for implementing the action and complying with the grant agreement, including an obligation to ensure that certain contractual obligations also apply to associated partners. It is highly encouraged to define these obligations as well as financial arrangements between the beneficiary and associated partners, according to the needs of the project, in a partnership agreement. For a definition of "associated partner", please see 2.3.1 Annex 2 of the Horizon Europe Work Programme.

During an MSCA Postdoctoral Fellowship (MSCA-PF), the researcher requires additional funding for personnel and lab equipment that is not covered by the MSCA grant. Is it possible to apply for another grant in that respect?

Active

The Marie Skłodowska-Curie actions (MSCA) scheme does not prevent the host institution from receiving additional funding as long as the same costs are not reimbursed by both grants, and the researcher does not receive (for activities carried out in the frame of the action) other incomes than those received from the beneficiary.

Portal Funding and Tender Opportunities (FTOP)

While implementing an MSCA-PF, the researcher has been awarded a permanent academic position within an organisation that is not the host institution. Can he/she nevertheless participate in the Marie Skłodowska-Curie Postdoctoral Fellowship?

Active

No, he/she cannot. According to Article 18 of the Model Grant Agreement for Unit Grants, the researcher must work exclusively on the action, unless part-time for professional reasons is allowed and has been approved; additionally, the researcher cannot receive incomes other than those received from the beneficiary for the activities carried out in the frame of the MSCA.

16401

Under Marie Skłodowska-Curie Postdoctoral Fellowships (MSCA-PF), is it possible to work part-time?

Active

As a rule, in MSCA-PF the researcher must be employed full-time. Part-time employment can however be accepted on personal or family grounds, after the start of the action. Part-time for professional reasons in order to pursue supplementary activities can also be requested provided that it is agreed beforehand together with the supervisor and beneficiary and has received the prior approval of the European Research Executive Agency (REA). However, the researcher cannot be involved in two MSCA grants at the same time. In case of part-time work for professional reasons, the researcher must dedicate at least 50% of their working time to the MSCA-PF action.

For Global Fellowships, part-time work due to engaging in supplementary activities cannot take place during the outgoing phase. Supplementary activities include, for example, creating a company, pursuing another research project, engaging in advanced studies not related to the MSCA grant.
