

## PREDOCTORAL “FPI” FELLOWSHIP IN NEUROSCIENCE

We offer a 4-year predoctoral “FPI” fellowship associated to the project *Understanding the contribution of cellular senescence to Alzheimer’s Disease* (PID2022-138829OA-I00) lead by Ana Guerrero. The research group belongs to the Institute of Neurosciences of the University of Barcelona (UBneuro) and is based at the Faculty of Pharmacy.

We are seeking a talented and highly motivated researcher. Previous experience working with animal models, particularly mouse models will be highly regarded during the selection process. Evaluation criteria will also include personal skills such as motivation, independence, and the ability to work effectively within a team.

### **Elegibility:**

- BSc and MSc in Biology, Biochemistry, Neurosciences, and related fields.
- Good academic record.
- Previous research experience in cellular/molecular biology and/or neurosciences.

Interested candidates must send CV, academic record including average grades (for BSc and MSc), and contact details of at least one supervisor who can provide a reference to Dr. Ana Guerrero ([anaguerrero@ub.edu](mailto:anaguerrero@ub.edu)) by 22<sup>nd</sup> September 2023.
