

Campus Clínic

Seminaris Facultat de Medicina i Ciències de la Salut

DATE: **WEDNESDAY 3rd of November 2021**

PLACE: **AULA 17, Campus Clínic**

HOUR: **13:00 h**

Sara Palma Tortosa, Ph.D
**Laboratory of Stem Cells and
Restorative Neurology**
Lund Stem Cell Center (Sweden)

" Stem cells as a promising therapy for ischemic stroke"

Brief Biography

Sara Palma is Researcher at Lund Stem Cell Center (Sweden), Laboratory of Stem Cells and Restorative Neurology headed by Zaal Kokaia.

Sara got the Bachelor's and the Master's degrees in Biochemistry at Complutense University (Spain). She defended her PhD in 2017 at the same University with a thesis entitled: "Temporal profile of neurogenesis after an experimental ischemic stroke. Implication of TLR4"

Then, she moved to the laboratory of Stem Cells and Restorative Neurology, headed by Professor Zaal Kokaia for her postdoc, and now she is Associated Researcher at the same laboratory, developing projects related to stem cell-based therapies for stroke.
