

LABORATORY OF NEURAL STEM CELLS AND BRAIN DAMAGE IS LOOKING FOR A POSTDOCTORAL RESEARCHER

[The University of Barcelona \(UB\)](#) offers a vacant position for a **POSTDOCTORAL RESEARCHER** within the **STEM CELLS AND NEURODEVELOPMENT** research area of the [Institute of Neurosciences \(UBneuro\)](#).

The Institute of Neurosciences (UBneuro) was created under the premise to gather all research at the University of Barcelona that focused on a common goal: understanding the nervous system as a whole to give response to society challenges. Being one of the few institutes in the world that investigates the brain at every level, we're established as a frontrunner in international neuroscience research. Recognized with the prestigious María de Maeztu Excellence Unit accreditation, we house diverse research groups in neurobiology, neuropharmacology, pathophysiology, neurology, psychiatry, clinical psychology, neuropsychobiology, and cognitive neurosciences. Join us as we contribute to cutting-edge discoveries in neuroscience.

JOB DESCRIPTION

We are looking for a postdoctoral researcher to lead a project focused on Stem Cell Therapy for Stroke. The researcher will carry out all the surgeries in the animal model, analyse the results and write reports and manuscripts.

REQUIREMENTS

Important to have experience and certificates to work with animals, in particular with stereotaxic neurosurgery in mice, perfusion and immunohistochemical analysis.

EMPLOYMENT CONDITIONS

Two years contract and all the resources to carry out the project in a wonderful environment.

HOW TO APPLY

Please send your CV and some lines about you to: daniel.tornero@ub.edu

DEADLINE

Until position is covered
